

The Two AST Shapes

Immutable

read-only, produced by parsing

MiniYamlNode

- Key (string)
- Value (MiniYaml)
- Comment (string)
- Location

MiniYaml

- Value (string)

- Nodes

ImmutableArray<Node>

contains

Children

- safe to share & cache
- comparable by reference
- used by Ruleset

Mutable

used for editing / settings

MiniYamlNodeBuilder

- Key (string)
- Value (MiniYamlBuilder)
- Comment (string)
- Location

MiniYamlBuilder

- Value (string)

- Nodes

List<NodeBuilder>

contains

Children

- editable in memory
- used by Settings.Commit
- same line serialization

Both serialize through MiniYamlExts.ToLines / MiniYaml.ToLines
